

Can you put a price on a parent?

What if Mum or Dad were unable to work, cook, clean or look after the children due to death or illness? The cost of unpaid work done by a parent could be as much as £29,500 per year so it's a good idea to have a plan in place should the worst happen.

Check your bank statements

Plus, since my last update, it's a new financial year. Where is your money going? How much do you have left at the end of the month?

Are you still paying direct debits or standing orders for things you don't remember? Why do you have them and what do they cover your family for?

To discover ways that you can make your money work harder for you, both now and in the future, give me a call on **07928 676 675** or email helen.gadsby@inspirefinancialsolutionsltd.co.uk
